CALL FOR PAPERS

An international conference on *Forest Growth Modelling and Prediction* is scheduled for August 24–28, 1987 in Minneapolis, Minnesota. The meeting is sponsored by the International Union of Forestry Research Organizations.

Papers are desired on all types of tree and stand growth modelling methodology including: model specification, parameter estimation and evaluation; incorporation of silvicultural treatments, site characterization, weather and environmental perturbations; regeneration; design of growth studies; and application of models in research and management. Papers are desired for all types of forests including descriptions, are also desired.

The conference is intended for scientists and practitioners developing tree and forest growth models and predictions. The purpose is to exchange ideas, techniques and results.

Send the title, abstract, preference for paper or poster presentation, your address and telephone number by December 15, 1986 to:

Alan R. Ek, Program Chairman
College of Forestry
University of Minnesota
110 Green Hall
St. Paul, MN 55108
USA
Ph: 612/624–3098

Acceptance of papers will be indicated by February 1, 1987.
